

Thank you for purchasing the original JetLine MONGOOSE™, butane lighter with blue torch flame, durable and attractive design, with an assortment of colors. Lighter features a state of the art piezo electronic quartz crystal instant ignition system and a powerful wind resistant torch flame.

The precision engineering and fine craftsmanship makes the JetLine MONGOOSE™ the ultimate cigar lighter.

Use the JetLine MONGOOSE™ when you are on the go: the wind resistant flame is ideal for outside use. Whether you are boating, hiking, driving down the coast, on the golf course, or just walking down the street, you'll get a fast, reliable flame every time you need it.

With our commitment to maintain the JetLine tradition of quality and innovation, K. K. International Corporation has continued to advance and expand the choices available in their lighters while still offering a strong emphasis on customer care and support.

K. K. International Corp.

FILLING WITH GAS

1. Air often gets trapped in the tank during refilling. A lighter must be purged periodically. Before you refill, be sure to depress the intake valve to release any stored air. Too much air in the tank will prevent the butane from reaching the burners, in turn preventing a spark.
2. Be sure the cap is closed on the JetLine MONGOOSE™ before filling with gas. Shake the butane canister.
3. Turn lighter upside down and vertically insert gas canister nozzle into gas inlet valve located at the bottom of the JetLine MONGOOSE™.
4. Allow 1 minute for the butane to stabilize before igniting.

IGNITION AND EXTINGUISHING

1. Grip the two ignition paddles with your thumb and index figure, or to comfort.
2. Gently squeeze both ignition paddles together.
3. To extinguish the flame, simply release your grip on the ignition paddles.

FUEL VALVE

LIFETIME WARRANTY

K. K. International Corp. warrants each and every JetLine MONGOOSE™ and parts thereof manufactured for it or included with it to be free from mechanical defects only in material and workmanship, under normal use, for life. Physical damage is not covered under this warranty.

If for some reason a problem should develop, return the unit along with proof of purchase to K. K. International Corp. Sender is responsible for cost of return shipment. Include a note detailing the problem, your name, telephone number and return address. If our inspection shows that the part/piece is defective we will make the necessary repairs free of charge, or replace it, at K. K. International Corp.'s sole discretion.

The warranty does not apply to the outer finish of your lighter. If we determine the problem is not covered by our warranty, we will provide an explanation why as well as a repair cost estimate. K. K. International Corp. will not be held liable for any consequential damages resulting from the misuse of your lighter.

K. K. International Corp. offers this warranty in lieu of all other expressed or implied warranties, including warranties of merchantability of fitness to be in effect only for the duration of the expressed warranty set forth above.
